

ROARING FIRE SWEEPS BANGOR

One-third of Maine City Is Consumed by Flames.

LOSS TOTALS SIX MILLIONS

Three Persons Known to Have Lost Their Lives, Thousands of Persons Are Homeless, Large Port of Business Section Gone and All Public Buildings Except the City Hall in Ruins—Dynamite Fails to Check Progress of the Flames.

Bangor, Me., May 1.—One-third of the city of Bangor is in ruins, thousands of persons are homeless and a property loss estimated at \$6,000,000 was sustained as the result of a fire which raged for hours.

Starting in a hay shed on Broad street the fire swept along Broad and Exchange streets, through the heart of the city, leaving residences, churches, schools, business blocks and all the public buildings, with the exception of the city hall, a mass of smoking ashes.

For many hours the firemen of Bangor, assisted by men and apparatus from other Maine cities, battled against the blaze before they conquered it. Dynamiting proved of little avail. Buildings were blown up, but the flames easily leaped the chasms thus made, and it was not until the wind, which had been blowing almost a gale, shifted and a light rain fell, that the flames were checked.

But while the rain and the shifting of the wind to the east saved the rest of the city from destruction it only added to the discomforts of thousands who had seen their homes go up in flames and who were huddled together in the streets.

Unfortunates Without Shelter.

The burning of the churches and public buildings left many of the unfortunates without a place of shelter. Three lives are known to have been lost, although the names of none of the victims are known. A fireman was injured by a falling wall and died on the way to the hospital; an unknown young man was crushed to death when one of the churches collapsed and an elderly man from Brewer who had crossed the river to watch the fire, was also buried beneath falling debris.

Fanned by a high wind fire wiped out practically all the business section of the city and swept uncontrolled into the residence sections. Half an hour after the first alarm nearly a dozen buildings were in flames and the fire was eating its way northward on Broad and Exchange streets on either side of Kenduskeag stream.

Telegraph Offices Burn.

The telegraph companies' offices were both burned early in the conflagration, but later were established outside the zone and communication was resumed in the temporary offices. Several alarms were sounded almost simultaneously. In addition to the fire at the corner of Broad and Exchange streets the firemen found a blaze in a bicycle repair shop in the rear of the telephone office. Both fires spread with such rapidity that the firemen were helpless.

One of the few buildings to escape destruction was the city hall. This was in the direct path of the fire, but the flames leaped over it and it was hardly scorched.

At this point the flames crossed the Kenduskeag and continued along both sides of the stream.

As it burned north the path of destruction grew wider, while sparks set innumerable fires, many of them a considerable distance from the main conflagration.

An ineffectual attempt was made to stay the progress of the flames by dynamiting several blocks, but the fire bridged the chasm and continued with unabated fury.

INSISTS WHITTIER MUST GO

Governor Takes Positive Action Regarding Training School.

St. Paul, May 1.—Governor Eberhart wrote a letter to the state board of control putting the resignation or dismissal of F. J. Whittier, superintendent of the Red Wing training school for boys, squarely up to the board. One of the two alternatives is left for acceptance by the board.

The letter was written after a conference between Governor Eberhart, Superintendent Whittier and Judge Wilson of Red Wing, Mr. Whittier's attorney.

To Have President As Guest.

Philadelphia, May 1.—President Taft will be the guest of honor at a banquet and reception to be given next Thursday night by the Medical club of Philadelphia.

DARROW WILL DEFEND ACCUSED

Chicago Attorney to Appear for McNamara Brothers.

HEARING MAY BE DELAYED

Because of His Alleged Confession Several Days Ago and His Refusal to See Attorneys for the Defense McManigal Is Left Out of All Consideration by Friends of the McNamara Brothers—Union Labor Preparing to Finance the Defense.

Los Angeles, May 1.—Word has been received here direct from Clarence Darrow, the Chicago attorney, that he would undertake the defense of John J. and James B. McNamara, the alleged dynamite conspirators.

The arraignment of the prisoners, scheduled to occur not later than Wednesday, may be deferred until the arrival of attorneys representing the National Erectors' association, who, it is said, will assist in the prosecution of the McNamaras.

Because of his alleged confession three days ago and his subsequent refusal to see attorneys for the defense McManigal is left out of all consideration by the friends of the McNamaras.

PLAN TO DEFEND McNAMARAS

Conference of Prominent Labor Men at Indianapolis.

Indianapolis, May 1.—Samuel Gompers, president of the American Federation of Labor, arrived here and immediately went into executive conference with about forty labor leaders of national and state organizations whose headquarters are here. After the conference Mr. Gompers said the McNamara case was discussed and that the executive council of the American Federation of Labor would take charge of a defense fund, which would be raised by contribution from the various labor organizations of the country.

A meeting of the executive council is to be called soon by Mr. Gompers, who said the session probably would be held in this city. Further than this Mr. Gompers would not talk regarding the action of the labor leaders here.

HAYWOOD ADVOCATES STRIKE

Urges Laboring Men to Join McNamara Demonstration.

St. Louis, May 1.—Addressing a meeting of laboring men in union headquarters here William D. Haywood, once tried and acquitted for complicity in the death of former Governor Steunenburg of Idaho, advocated a general strike throughout the United States on the day the McNamara brothers are brought to trial in Los Angeles.

The meeting was under the auspices of the Socialist-Labor party and approximately 1,000 were in attendance. Haywood explained that the idea of a demonstration such as he proposed originated with the national officers of the Industrial Workers of the World, with headquarters in Chicago, where, he said, the movement already had gained considerable headway.

SOCIALISTS PROFFER HELP

Entire Power of Party Organization for Defense of Union Men.

Boston, May 1.—The full strength of the Socialist party of America was offered for the defense of John J. and James B. McNamara, who are charged with murder in connection with the explosion at the Los Angeles Times building, by the national executive committee of the party now in session here.

A telegram was sent to President F. Ryan of the Iron Workers' union reading as follows:

"The national executive committee of the Socialist party offers the entire power of its 4,000 organizations and its press, consisting of ten dailies, more than 100 weeklies and ten monthlies, in all languages, to be used in the defense of the McNamaras and any other help within our power."

TAKES VENGEANCE ON DRIVER

Italian Shoots Teamster Whose Horses Trampled Boy to Death.

New York, May 1.—Giuseppe Bongroci, an Italian cigarmaker, who saw his three-year-old boy trampled fatally beneath the hoofs of truck horses, took summary vengeance upon the driver, Willard Krugman, by pouring four bullets from a revolver into his body.

The driver fell dead from his seat almost into the arms of a policeman and a mob of 2,000 persons, bent upon punishing him, first stood aghast at the shooting, then set furiously upon the slayer. Reserves rescued him unconscious and he was taken to a hospital, then lodged in jail on a murder charge. The child died.

PRINCESS TROUBETZKOY.

And J. A. Chaloner, Former Husband, Who May Refuse Alimony.

PRINCESS IS NOT WORRIED

Troubetzkoy Says Wife Isn't Alarmed by Chaloner's Threat.

New York, May 1.—The threat of John Armstrong Chaloner that unless Princess Troubetzkoy relinquishes her dower rights and abandons the claim that she loaned him \$20,000 he will resist in the courts any further payment of alimony did not create a flutter of alarm at the Troubetzkoy studio in Thirty-ninth street.

"These affairs are so crude, so gross, that a gentleman cannot discuss them," the prince said. "I am sure the princess is not alarmed and if she were I am equally sure she would not tell you so. How can you expect a woman devoted to her art and unused to worldly affairs to bare to the world matters of so personal a nature? But I am sure the princess is not alarmed."

INSURRECTOS AGREE UPON PEACE TERMS

Formulate Program to Present to Mexican Envoys.

El Paso, Tex., May 1.—In a low adobe house upon which the sun beat fiercely leaders of the Mexican insurrection, political and military, sat for four hours formulating a programme to be presented to the federal government through its peace envoys.

At the conclusion of the conference, Francisco I. Madero, Jr., president of the provisional government, announced the election by ballot of Dr. Francisco Vasquez Gomez, Francisco Madero, Sr., and Senor Jose Suarez as peace commissioners of the revolutionary party.

With the provisional governors of the various states in which the insurgents have organized their government present a definite basis of peace terms was agreed upon. Though no official announcement of the terms was made, it was admitted by many that there may be breakers ahead.

The substance of the insurrecto demands is known in a general way. The revolutionists insist on participation in government affairs and point out that the only way to guarantee it is to place some members of their party in the cabinet and to select at least a dozen of their supporters as provisional governors pending new elections.

KANSAS IN GRASP OF STORM

Snow, Accompanied by Decided Fall of Temperature.

Topeka, Kan., May 1.—A snow storm, driven by a high wind, is sweeping Northwestern Kansas. Salina and other towns report a temperature of 34 degrees, a fall of 58 since Saturday. Heavy rains, accompanied by high winds, have fallen over all the central and western parts of the state. This is the first rain of any consequence in two months. At a number of places damage was done by the wind.

KATSURA CABINET WON'T QUIT

Japan's Premier Sets at Rest Rumors of His Resignation.

Tokio, May 1.—Count Katsura, the premier, in an interview authorized the statement that no change in the cabinet is contemplated. Various rumors have been current here and widely published to the effect that the resignation of the Katsura cabinet was imminent. This caused an unsettled condition and has proved annoying to the government.

ROOSEVELT MEN LOSING PLACES

Changes Gradual, but Going on All the Time.

ALL KINDS OF RECIPROCITY.

Blaine Had One Variety, McKinley Another, Roosevelt Also Offered a Pattern, and Canadian Brand Is Still Different—Latest Is First to Promise Reduced Cost of Living.

By ARTHUR W. DUNN.

Washington, May 1.—[Special.]—As changes are made in the diplomatic service and in other federal appointments it is noticed that many of the more pronounced Roosevelt men are finding themselves in private life and that the shifting process seems to land the out and out Taft men in the best positions.

These changes are made gradually, but they are going on all the time, and it would not be strange to see the entire elimination of the Roosevelt crowd before the next presidential campaign begins in real earnest.

There can be no complaint on this score. Roosevelt tried to keep the McKinley men, but he learned that it was necessary to find places for his own friends, and gradually in the seven and one-half years he was president nearly every McKinley man gave place to a Roosevelt man.

Different Kinds of Reciprocity.

Discussion of the Canadian reciprocity bill has brought out many different brands of reciprocity. There is the Blaine patent, which can be twisted to meet almost anything one wants so it does not interfere with the tariff.

Then there is the McKinley brand, a nebulous sort of kind, which no one can explain because the lamented president never undertook to explain it himself. But his followers say that it was reciprocity in noncompetitive products. Then there is a Roosevelt brand of reciprocity which was exemplified in the 20 per cent reduction on Cuban sugar which is said to have been largely for the benefit of the sugar trust.

While the Democrats are responsible for putting through the Canadian reciprocity bill, it is doubtful if they will claim it, and it will continue to bear the Taft brand. One thing about it, however—it is the only real effective reciprocity in the sense of reducing the cost of products to consumers.

"Another Girl."

It was Congressman Howland of Ohio who went boldly forth proclaiming reciprocity as a Republican doctrine. Turning to his Republican colleagues, he said: "You would think to hear the discussions in this chamber that reciprocity was a heresy. Why, we used to hear gentlemen talk glibly about reciprocity as the handmaiden of protection, but what has happened to that handmaiden of protection at the hands of standpatters in this debate is simply awful."

"This is another girl," interrupted Hamilton of Michigan.

Test of a Speech.

"That was a good speech you made on Canadian reciprocity," a friend said to Asher Hinds.

"That remains to be seen," replied the Maine congressman. "If it re-lects me it is a good speech, but if it doesn't then it is no good."

Hinds spoke vigorously against reciprocity, but he did not please everybody in his district. There are many people in Portland who are not interested in higher prices for farm products and who would be very glad to get cheaper foodstuffs from Canada.

An Old Party Line.

After all, the only great dividing line is that of Mason and Dixon. Everything in the debate thus far shows that men north and south differ on the tariff just in proportion to the effect upon the local interests they represent, and both Democrats and Republicans are found on either side of the protection and tariff for revenue lines.

But you can always find a line of demarcation when anything arises which has a sectional appearance. This was shown in the debate on the resolution for election of senators by direct vote and on the campaign publicity bill, and these measures brought out the Republicanism of the insurgents.

The tariff finds regulars and insurgents opposed to each other. Democrats in different sections and even in the same states cannot agree, but bring in something to remind congress there was once a Mason and Dixon line and you will see a party division as distinct as it ever has been in the past.

The Davis Bill.

Congressman Davis of Minnesota has reintroduced his bill having for its purpose the co-operation of the national and state governments in the establishment and conduct of agricultural schools. The bill is strongly endorsed by Assistant Secretary Hays of the agricultural department, who has prepared a great deal of data on the subject to show its benefits.

An interesting feature in connection with this bill is that it cost Davis his place on the agricultural committee of the house and helped to make him an insurgent. Davis was an ardent advocate of the bill. It smacked of paternalism which Uncle Joe would not accept, and he removed Davis.

Fish in Arctic Waters.

In northern waters millions of fish are ground into nothing by the moving masses of ice.

CHARLES E. MERRIAM.

Paid Out \$133,254 in the Race for Mayor of Chicago.

PAID OUT \$133,254 TO LOSE

Expenses of Republican Candidate for Mayor of Chicago.

Chicago, May 1.—Charles E. Merriam, professor at the University of Chicago, spent \$133,254 in his recent effort to become mayor of Chicago, according to a final statement of campaign receipts and expenditures made public. The total receipts were \$135,191.65.

The contributions ranged from \$10,000 by Julius Rosenwald to 1 cent from an anonymous contributor. Victor F. Lawson, Harold McCormick and James A. Patten also contributed \$10,000 each. Women proved a strong aid to the Republican candidate in financing his campaign. Mrs. Nettie F. McCormick gave \$10,000; Louise D. K. Bowen gave \$1,000 and woman's clubs made contributions.

DETECTIVES ADMIT TRAPPING MEMBERS

Three Sleuths Arrested in Ohio Legislative Scandal.

Columbus, O., May 1.—Admissions were made by three detectives arrested as alleged lobbyists in the general assembly that they had successfully manipulated a trap for members of the legislature suspected of participating in bribery. Five legislators were named by the detectives, including one representative and four senators. A senate attaché also was named.

It is admitted by Prosecutor Turner that a device to record conversations was placed under a couch in the hotel rooms occupied by the detectives and that incriminating evidence is in process of presentation to the grand jury. There are reports that a number of legislators will be indicted and that a legislative investigating committee will be appointed.

The three men arrested were employed by the manufacturers' association and they admit they offered and paid bribes, asserting that their object was to gain evidence against assemblymen. Their arrests were made on warrants sworn to by Dr. George B. Nye, representative from Pike county, who said they had paid him money to help in passage of a bill to amend mutual insurance companies now barred from the state and the woman's nine-hour bill.

LORIMER MAY QUIT SENATE

Supporters of Illinois Man Believe He Should Resign.

Washington, May 1.—Repeated rumors of the early resignation of Senator Lorimer of Illinois are current. The pressure for the resignation from senators and representatives who have been supporting him is growing. Some of these supporters declare the time is at hand when for him to remain will be to get his friends into serious trouble.

The disposition of the special committee of the Illinois legislature to press the investigation is making some of the friends of Lorimer squirm. As the inquiry gets closer to men alleged to be "higher up" in bringing about his election the demand for resignation grows.

MAN AND WIFE CONVICTED

Husband Gets First Degree Murder and Wife Second.

Walker, Minn., May 1.—After being out two and a half hours the jury in the McCabe murder case brought in a verdict finding Charles Henry Schmidt guilty of murder in the first degree and his wife guilty of murder in the second degree.

A Hard Road to Travel.

A drunken man whom a friend was trying to bring to his home some miles away was constantly crossing from one side of the road to the other, so his friend said to him, "Come on, Pat—come on; the road is long." "I know it is long," said Pat, "but it isn't the length of it, but the breadth of it, that's killing me."—Le Fann's "Irish Life."

FIVE DEPUTIES WOUNDED

Officers and Unknown Men Battle at Dallas, Tex.

Dallas, Tex., May 1.—In a battle between deputy sheriffs and unidentified persons here five officers were shot, one probably fatally.

THREATENS LIFE OF BURNS

Letter Intimates Detective Will Be Blown to Atoms.

Chicago, May 1.—A letter threatening to blow to atoms Detective William J. Burns, his son Raymond and District Attorney Fredericks of Los Angeles was received by Chief Burns, head of the agency which caused the arrest of the McNamara brothers and Orrie F. McManigal, charged with blowing up the Los Angeles Times building and with scores of other dynamite outrages.

The letter was signed with the name M. J. Schmidt, which is the name of one of the three men accused of dynamiting.

Snow in South Dakota.

Omaha, May 1.—Reports from Dallas, S. D., indicate a fall of two feet of snow on the level during the last twenty-four hours. Heavy rain or snow storms also visited portions of Southern Wyoming and Northwestern Nebraska. Although the temperature has fallen to some extent it is believed it will not drop to the point where growing crops will be seriously damaged.

Store Blown Up by Bomb.

Rhineland, Wis., May 1.—As the alleged result of a political feud the store of Fred R. Tripp at Sugar Camp, Oneida county, was shattered by the explosion of a dynamite bomb supposedly placed in the building by enemies of Tripp. Tripp and his wife, sleeping on the second floor, were hurried from their beds and narrowly escaped death in the flames which broke out after the explosion and consumed what remained of the damaged building.

Scores of Others Injured in Accident to Teachers' Special.

PLUNGES OVER EMBANKMENT

Spreading Rails Believed to Have Caused Train on Pennsylvania Road Running From Utica, N. Y., to Washington to Jump the Track at Martins Creek, N. J.—Victims Burn to Death in Wreckage.

Easton, Pa., May 1.—So far as it is possible to ascertain in this city and at the scene of the accident eight persons were burned to death, three fatally injured, two others so seriously injured that their lives are despaired and scores of persons were cut, burned and bruised, some of them dangerously, in the wreck of the teachers' special from Utica, N. Y., to Washington, on the Belvidere-Delaware division of the Pennsylvania railroad at Martins Creek, N. J. Bones of eight persons have been taken from the debris and the wreck crew has quit work.

Miss Augusta Lyte of Utica is in a critical condition in the hospital suffering from general burns and shock and George W. Parsons of Lambertville, N. J., fireman, is so severely burned that neither is expected to survive.

Local officials of the railroad company are uncommunicative as to the cause of the accident. General Manager F. L. Shappard of the Pennsylvania railroad was at the wreck, but refused to make a statement. He hurried back to Jersey City. Other high officials have been at the scene.

It is the general belief that the rails spread and caused the train to leave the track and plunge over the embankment to destruction. Trackmen had been at work at the point of the disaster and it is alleged that the tracks were jacked up, but no signal was out and that the engineer, believing he had a clear track, rushed into what proved to be a death trap at the rate of fifty miles an hour.

ROARING FIRE SWEEPS BANGOR

One-third of Maine City Is Consumed by Flames.

LOSS TOTALS SIX MILLIONS

Three Persons Known to Have Lost Their Lives, Thousands of Persons Are Homeless, Large Port of Business Section Gone and All Public Buildings Except the City Hall in Ruins—Dynamite Fails to Check Progress of the Flames.

Bangor, Me., May 1.—One-third of the city of Bangor is in ruins, thousands of persons are homeless and a property loss estimated at \$6,000,000 was sustained as the result of a fire which raged for hours.

Starting in a hay shed on Broad street the fire swept along Broad and Exchange streets, through the heart of the city, leaving residences, churches, schools, business blocks and all the public buildings, with the exception of the city hall, a mass of smoking ashes.

For many hours the firemen of Bangor, assisted by men and apparatus from other Maine cities, battled against the blaze before they conquered it. Dynamiting proved of little avail. Buildings were blown up, but the flames easily leaped the chasms thus made, and it was not until the wind, which had been blowing almost a gale, shifted and a light rain fell, that the flames were checked.

But while the rain and the shifting of the wind to the east saved the rest of the city from destruction it only added to the discomforts of thousands who had seen their homes go up in flames and who were huddled together in the streets.

Unfortunates Without Shelter.

The burning of the churches and public buildings left many of the unfortunates without a place of shelter. Three lives are known to have been lost, although the names of none of the victims are known. A fireman was injured by a falling wall and died on the way to the hospital; an unknown young man was crushed to death when one of the churches collapsed and an elderly man from Brewer who had crossed the river to watch the fire, was also buried beneath falling debris.

Fanned by a high wind fire wiped out practically all the business section of the city and swept uncontrolled into the residence sections. Half an hour after the first alarm nearly a dozen buildings were in flames and the fire was eating its way northward up Broad and Exchange streets on either side of Kenduskeag stream.

In the pathway of the flames were banks, office buildings, the public library and other structures, all of which were reduced to ashes. The city was soon shut off from telephonic communication by the burning of the central office and calls for aid from Portland, Lewiston and Augusta were sent out by the wire chief of the company, who climbed a pole and cut in on trunk lines.

Telegraph Offices Burn.

The telegraph companies' offices were both burned early in the conflagration, but later were established outside the zone and communication was resumed in the temporary offices. Several alarms were sounded almost simultaneously. In addition to the fire at the corner of Broad and Exchange streets the firemen found a blaze in a bicycle repair shop in the rear of the telephone office. Both fires spread with such rapidity that the firemen were helpless.

One of the few buildings to escape destruction was the city hall. This was in the direct path of the fire, but the flames leaped over it and it was hardly scorched.

As it burned north the path of destruction grew wider, while sparks set innumerable fires, many of them a considerable distance from the main conflagration.

An ineffectual attempt was made to stay the progress of the flames by dynamiting several blocks, but the fire bridged the chasm and continued with unabated fury.

PRINCESS IS NOT WORRIED

Troubetzkoy Says Wife Isn't Alarmed by Chaloner's Threat.

New York, May 1.—The threat of John Armstrong Chaloner that unless Princess Troubetzkoy relinquishes her dower rights and abandons the claim that she loaned him \$20,000 he will resist in the courts any further payment of alimony did not create a flutter of alarm at the Troubetzkoy studio in Thirty-ninth street.

"These affairs are so crude, so gross, that a gentleman cannot discuss them," the princess said. "I am sure the princess is not alarmed and if she were I am equally sure she would not tell you so. How can you expect a woman devoted to her art and unused to worldly affairs to bare to the world matters of so personal a nature? But I am sure the princess is not alarmed."

INSURRECTOS AGREE UPON PEACE TERMS

Formulate Program to Present to Mexican Envoys.

El Paso, Tex., May 1.—In a low adobe house upon which the sun beat fiercely leaders of the Mexican insurrection, political and military, sat for four hours formulating a programme to be presented to the federal government through its peace envoys.

At the conclusion of the conference, Francisco I. Madero, Jr., president of the provisional government, announced the election by ballot of Dr. Francisco Vasquez Gomez, Francisco Madero, Sr., and Senor Jose Suarez as peace commissioners of the revolutionary party.

With the provisional governors of the various states in which the insurgents have organized their government present a definite basis of peace terms was agreed upon. Though no official announcement of the terms was made, it was admitted by many that there may be breakers ahead.

The substance of the insurrecto demands is known in a general way. The revolutionists insist on participation in government affairs and point out that the only way to guarantee it is to place some members of their party in the cabinet and to select at least a dozen of their supporters as provisional governors pending new elections.

KANSAS IN GRASP OF STORM

Snow, Accompanied by Decided Fall of Temperature.

Topeka, Kan., May 1.—A snow storm, driven by a high wind, is sweeping northwestern Kansas. Salina and other towns report a temperature of 34 degrees, a fall of 58 since Saturday. Heavy rains, accompanied by high winds, have fallen over all the central and western parts of the state. This is the first rain of any consequence in two months. At a number of places damage was done by the wind.

KATSURA CABINET WON'T QUIT

Japan's Premier Sets at Rest Rumors of His Resignation.

Tokyo, May 1.—Count Katsura, the premier, in an interview authorized the statement that no change in the cabinet is contemplated. Various rumors have been current here and widely published to the effect that the resignation of the Katsura cabinet was imminent. This caused an unsettled condition and has proved annoying to the government.

ROOSEVELT MEN LOSING PLACES

Changes Gradual, but Going on All the Time.

ALL KINDS OF RECIPROCITY.

Blaine Had One Variety, McKinley Another, Roosevelt Also Offered a Pattern, and Canadian Brand Is Still Different—Latest Is First to Promise Reduced Cost of Living.

By ARTHUR W. DUNN.

Washington, May 1.—[Special.]—As changes are made in the diplomatic service and in other federal appointments it is noticed that many of the more pronounced Roosevelt men are finding themselves in private life and that the shifting process seems to land the out and out Taft men in the best positions.

There can be no complaint on this score. Roosevelt tried to keep the McKinley men, but he learned that it was necessary to find places for his own friends, and gradually in the seven and one-half years he was president nearly every McKinley man gave place to a Roosevelt man.

Different Kinds of Reciprocity.

Discussion of the Canadian reciprocity bill has brought out many different brands of reciprocity. There is the Blaine patent, which can be twisted to meet almost anything one wants so it does not interfere with the tariff.

Then there is the McKinley brand, a nebulous sort of kind, which no one can explain because the lamented president never undertook to explain it himself. But his followers say that it was reciprocity in noncompetitive products. Then there is a Roosevelt brand of reciprocity which was exemplified in the 20 per cent reduction on Cuban sugar which is said to have been largely for the benefit of the sugar trust.

While the Democrats are responsible for putting through the Canadian reciprocity bill, it is doubtful if they will claim it, and it will continue to bear the Taft brand. One thing about it, however—it is the only real effective reciprocity in the sense of reducing the cost of products to consumers.

"Another Girl."

It was Congressman Howland of Ohio who went boldly forth proclaiming reciprocity as a Republican doctrine. Turning to his Republican colleagues, he said: "You would think that reciprocity was a heresy. Why, we used to hear gentlemen talk glibly about reciprocity as the handmaiden of protection, but what has happened to that handmaiden of protection at the hands of standpatters in this debate is simply awful."

"This is another girl," interrupted Hamilton of Michigan.

Test of a Speech.

"That was a good speech you made on Canadian reciprocity," a friend said to Asher Hinds.

"That remains to be seen," replied the Maine congressman. "If it reflects me it is a good speech, but if it doesn't then it is no good."

Hinds spoke vigorously against reciprocity, but he did not please everybody in his district. There are many people in Portland who are not interested in higher prices for farm products and who would be very glad to get cheaper foodstuffs from Canada.

An Old Party Line.

After all, the only great dividing line is that of Mason and Dixon. Everything in the debate thus far shows that men north and south differ on the tariff just in proportion to the effect upon the local interests they represent, and both Democrats and Republicans are found on either side of the protection and tariff for revenue lines.

But you can always find a line of demarcation when anything arises which has a sectional appearance. This was shown in the debate on the resolution for election of senators by direct vote and on the campaign publicity bill, and these measures brought out the Republicanism of the insurgents.

The tariff finds regulars and insurgents opposed to each other. Democrats in different sections and even in the same states cannot agree, but bring in something to remind congress there was once a Mason and Dixon line and you will see a party division as distinct as it ever has been in the past.

The Davis Bill.

Congressman Davis of Minnesota has reintroduced his bill having for its purpose the co-operation of the national and state governments in the establishment and conduct of agricultural schools. The bill is strongly indorsed by Assistant Secretary Hays of the agricultural department, who has prepared a great deal of data on the subject to show its benefits.

An interesting feature in connection with this bill is that it cost Davis his place on the agricultural committee of the house and helped to make him an insurgent. Davis was an ardent advocate of the bill. It smacked of paternalism which Uncle Joe would not accept, and he removed Davis.

Fish in Arctic Waters.

In northern waters millions of fish are ground into nothing by the moving masses of ice.

CHARLES E. MERRIAM.

Paid Out \$133,254 in the Race for Mayor of Chicago.

PAID OUT \$133,254 TO LOSE

Expenses of Republican Candidate for Mayor of Chicago.

Chicago, May 1.—Charles E. Merriam, professor at the University of Chicago, spent \$133,254.80 in his recent effort to become mayor of Chicago, according to a final statement of campaign receipts and expenditures made public. The total receipts were \$135,191.65.

The contributions ranged from \$10,000 by Julius Rosenwald to 1 cent from an anonymous contributor. Victor F. Lawson, Harold McCormick and James A. Patten also contributed \$10,000 each. Women proved a strong aid to the Republican candidate in financing his campaign. Mrs. Nettie F. McCormick gave \$10,000; Louise D. K. Bowen gave \$1,000 and woman's clubs made contributions.

DETECTIVES ADMIT TRAPPING MEMBERS

Three Sleuths Arrested in Ohio Legislative Scandal.

Columbus, O., May 1.—Admissions were made by three detectives arrested as alleged lobbyists in the general assembly that they had successfully manipulated a trap for members of the legislature suspected of participating in bribery. Five legislators were named by the detectives, including one representative and four senators. A senate attaché also was named.

It is admitted by Prosecutor Turner that a device to record conversations was placed under a couch in the hotel rooms occupied by the detectives and that incriminating evidence is in process of presentation to the grand jury. There are reports that a number of legislators will be indicted and that a legislative investigating committee will be appointed.

The three men arrested were employed by the manufacturers' association and they admit they offered and paid bribes, asserting that their object was to gain evidence against assemblymen. Their arrests were made on warrants sworn to by Dr. George B. Nye, representative from Pike county, who said they had paid him money to help in passage of a bill to amend mutual insurance companies now barred from the state and the woman's nine-hour bill.

LORIMER MAY QUIT SENATE

Supporters of Illinois Man Believe He Should Resign.

Washington, May 1.—Repeated rumors of the early resignation of Senator Lorimer of Illinois are current. The pressure for the resignation from senators and representatives who have been supporting him is growing. Some of these supporters declare the time is at hand when for him to remain will be to get his friends into serious trouble.

The disposition of the special committee of the Illinois legislature to press the investigation is making some of the friends of Lorimer squirm. As the inquiry gets closer to men alleged to be "higher up" in bringing about his election the demand for resignation grows.

MAN AND WIFE CONVICTED

Husband Gets First Degree Murder and Wife Second.

Walker, Minn., May 1.—After being out two and a half hours the jury in the McCabe murder case brought in a verdict finding Charles Henry Schmidt guilty of murder in the first degree and his wife guilty of murder in the second degree.

A Hard Road to Travel.

A drunken man whom a friend was trying to bring to his home some miles away was constantly crossing from one side of the road to the other, so his friend said to him, "Come on, Pat—come on; the road is long." "I know it is long," said Pat, "but it isn't the length of it, but the breadth of it, that's killing me."—Le Fann's "Irish Life."

FIVE DEPUTIES WOUNDED

Officers and Unknown Men Battle at Dallas, Tex.

Dallas, Tex., May 1.—In a battle between deputy sheriffs and unidentified persons here five officers were shot, one probably fatally.

THREATENS LIFE OF BURNS

Letter Intimates Detective Will Be Blown to Atoms.

Chicago, May 1.—A letter threatening to blow to atoms Detective William J. Burns, his son Raymond and District Attorney Fredericks of Los Angeles was received by Chief Burns, head of the agency which caused the arrest of the McNamara brothers and Orrie F. McManigal, charged with blowing up the Los Angeles Times building and with scores of other dynamite outrages.

The letter was signed with the name M. J. Schmidt, which is the name of one of the three men accused of dynamiting.

Snow in South Dakota.

Omaha, May 1.—Reports from Dulles, S. D., indicate a fall of two feet of snow on the level during the last twenty-four hours. Heavy rain or snow storms also visited portions of Southern Wyoming and Northwestern Nebraska. Although the temperature has fallen to some extent it is believed it will not drop to the point where growing crops will be seriously damaged.

Store Blown Up by Bomb.

Rhineland, Wis., May 1.—As the alleged result of a political feud the store of Fred R. Tripp at Sugar Camp, Oneida county, was shattered by the explosion of a dynamite bomb supposedly placed in the building by enemies of Tripp. Tripp and his wife, sleeping on the second floor, were hurried from their beds and narrowly escaped death in the flames which broke out after the explosion and consumed what remained of the damaged building.

Scores of Others Injured in Accident to Teachers' Special.

PLUNGES OVER EMBANKMENT

Spreading Rails Believed to Have Caused Train on Pennsylvania Road Running From Utica, N. Y., to Washington to Jump the Track at Martins Creek, N. J.—Victims Burn to Death in Wreckage.

Easton, Pa., May 1.—So far as it is possible to ascertain in this city and at the scene of the accident eight persons were burned to death, three fatally injured, two others so seriously injured that their lives are despaired and scores of persons were cut, burned and bruised, some of them dangerously, in the wreck of the teachers' special from Utica, N. Y., to Washington, on the Belvidere-Delaware division of the Pennsylvania railroad at Martins Creek, N. J. Bones of eight persons have been taken from the debris and the wreck crew has quit work.

Miss Augusta Lyte of Utica is in a critical condition in the hospital suffering from general burns and shock and George W. Parsons of Lambertville, N. J., fireman, is so severely burned that neither is expected to survive.

Local officials of the railroad company are uncommunicative as to the cause of the accident. General Manager F. L. Shappard of the Pennsylvania railroad was at the wreck, but refused to make a statement. He hurried back to Jersey City. Other high officials have been at the scene.

It is the general belief that the rails spread and caused the train to leave the track and plunge over the embankment to destruction. Trackmen had been at work at the point of the disaster and it is alleged that the tracks were jacked up, but no signal was out and that the engineer, believing he had a clear track, rushed into what proved to be a death trap at the rate of fifty miles an hour.

TO VISIT CITIES OF WEST

New Jersey Governor Will Go to the Pacific Coast.

Trenton, N. J., May 1.—Governor Woodrow Wilson will leave Princeton next Wednesday afternoon for a four weeks' speaking tour of the Western and Pacific coast states. His itinerary includes Kansas City, Denver, Los Angeles, San Francisco, Berkeley, Portland, Seattle, St. Paul and Minneapolis, Lincoln and Chicago.

It is stated in the governor's behalf that the swing around the circle is not a campaign in any sense. All through the winter and spring he has been receiving invitations from organizations and groups of admirers in the West to visit and address them. He has, it is said, declined invitations from purely political or partisan bodies. It is said he will discuss political issues on the trip only in a broad, nonpartisan sense.

TEN THOUSAND QUIT WORK

Machinists, Bakers and Waitmakers Out in New York.

New York, May 1.—Ten thousand or more men and women in three trades are on strike, say labor leaders here. By night not a wheel will be turning in a single union machine shop here, they assert, unless employers grant the demand for an eight-hour day. To those figures the leaders add 4,000 machinists who walked out Saturday.

The machinists' strike overshadows in extent the two others, which have been called by the waitmakers and bakers, these affecting only isolated shops in Brooklyn and on the East Side.

CLEVELAND HAS DRY SUNDAY

Mayor's Orders Result in Tight Application of Saloon Lid.

Cleveland, May 1.—Though it rained most of the time Cleveland experienced its first "dry" Sunday in ten years as a result of Mayor Beahm's order that all saloons and poolrooms must remain closed hereafter on Sunday.

The roadhouses outside of the city limits were crowded during the afternoon and evening. A few saloons in the city attempted to keep open, but the owners were promptly arrested. About a dozen saloon keepers were booked on the police blotters.

declaration to abide by the people's
choice, will have this made clear on
the primary ballot, and the voters in
his district have the remedy in their
own hands. Party lines are practi-
cally eliminated under this law. Min-
nesota is a republican state by a large
majority, but if the republican candi-
date for senator is unpopular and the
democratic candidate has vote
winning qualities, and the members
of the legislature, although republi-
can by a large majority, abide by
their promises and the spirit of the
law, they would elect the democratic
candidate for senator.

It comes very near being a popular
election of senators, although the
law might have been made stronger
and more effective. In any event,
it will make it necessary for each
party to put forward their most pop-
ular candidates—men who have the
confidence of the people—and that
is something gained—St. Cloud Jour-
nal-Press.

P. B. Nettleton returned to Brainerd
last night after a winter's visit at
Seattle, Wash. "Seattle business con-
ditions were fairly good," said Mr.
Nettleton when interviewed. "But
nevertheless I am glad to bet back to
Brainerd and the town looks better
and busier to me than it did several
months ago when I went west for the
winter."

Schmidt's bottle beer, famous for
quality. Order a case. Telephone

The "Isle of Spice" company, 40
members, arrived this afternoon and
will present their musical comedy
this evening at the Brainerd opera
house. There has been a good sale
of seats and the production will no
doubt be greeted with a crowded
house. It carries very elaborate
scenery and the costumes worn by
the principals and the chorus are said
to be superb.

Mark, the Great Western Horse
Dealer, will be at Brainerd, on Wed-
nesday, May 3d, with two car loads
of the biggest western horses ever seen
in Brainerd. Sale will begin at 10:30

declaration to abide by the people's choice, will have this made clear on the primary ballot, and the voters in his district have the remedy in their own hands. Party lines are practically eliminated under this law. Minnesota is a republican state by a large majority, but if the republican candidate for senator is unpopular and the democratic candidate has vote winning qualities, and the members of the legislature, although republican by a large majority, abide by their promises and the spirit of the law, they would elect the democratic candidate for senator.

It comes very near being a popular election of senators, although the law might have been made stronger and more effective. In any event, it will make it necessary for each party to put forward their most popular candidates—men who have the confidence of the people—and that is something gained—St. Cloud Journal-Press.

THE CITY SWITCH BOARD INSTALLED

Board is Placed in Position Sunday Afternoon and Installation Work Finished Monday

PEAK LOAD SATURDAY 8:30 P. M.

Load Carried Varies From the Minimum 25 Kilowatts to 260 Kilowatts of Peak Load

For a short period Sunday morning and afternoon the electric current was shut off from Brainerd and busy workmen installed the city switch board made by the General Electric Co., of Schenectady, N. Y., at the Toltz Power Co. plant. It is a board of the most approved and up to date pattern and was placed in position by the Northwestern Electric Equipment Co.

The city's end of the board is two panels in width and the entire switch board is of black slate. It is equipped with a synchronic indicator which indicates when the tandem twin gas engines are in step, that is, both supplying current harmoniously and at the same time.

Another interesting device is the graphometer. A pen traces the amount of current generated and a long sheet is run out marked with the hours and so spaced that one may read the sheet and ascertain exactly what amount of current was produced at any period of the day or night.

On Sunday night at 8:30 P. M. when the street lights were on and when the churches commenced using current the amount supplied was 155 kilowatts. Monday morning at seven o'clock the consumption of current shrunk to 25 kilowatts.

The peak load was Saturday night when all the stores were busy and when the street lights were turned on full force. The indicator at 8:30 P. M. then registered 260 kilowatts. At eleven o'clock the same evening when business operations had ceased in the downtown district of Brainerd the electric light consumption dwindled to 110 kilowatts.

On the city's board is an ammeter for each circuit and also a watt meter for each of the two circuits. There are also two circuit closing overload relays.

There may occasionally be fluctuations in the supply of current but patrons must remember that at six o'clock the work of generating current is switched from the small to the larger engine and at eleven o'clock when the load is less the smaller engine again takes its position. The plant is new and is performing very creditably.

FORMER BRAINERD MAN IN CHARGE

Howard Curry Succeeds William Moir as Mechanical Superintendent of Northern Pacific

HAS 10,000 SKILLED WORKMEN

Mr. Curry Has Risen From the Ranks of Workers to His Present Position of Prominence

Howard W. Curry, recently appointed mechanical superintendent of the Northern Pacific railway system, was for many years a resident of Brainerd and his many friends in this city both in and out of railway circles will extend to him their congratulations and good wishes in the new position to which he has just been promoted. He will have in his employ and under his supervision 10,000 skilled railway workers. His career as a railroad man began in the shops of the Northern Pacific in 1880, and he is now 50 years old.

He came as a young man to Brainerd from Illinois, and from the beginning advanced steadily to successive places of responsibility. From the shop he went to firing and from that position to the position of engineer. From engineer he was promoted to foreman of engines in 1891, and held the job for ten years. Then for two years he was master mechanic of the Dakota and Yellowstone division. In 1902 he became master mechanic of the Minnesota division and in 1905 was advanced to general master mechanic of the Eastern division. Just now he has been made mechanical superintendent, the highest position in the line of his work within the gift of the road.

Because he has risen from the ranks, the rank and file of operating employees on the railway system are especially proud of their new superintendent. He lives at 1005 Hague avenue, St. Paul.

His predecessor, William Moir, before leaving his office Saturday was presented by fellow officers and employees of the railway with a library. He will make his future home in Tacoma.

PILES CURED IN 6 TO 14 DAYS

SUDDEN DEATH OF JOHN LOWEY

Popular Foreman of N. P. Ry. Pattern Shop Expires Sunday Morning at Herbert's Restaurant

JUST RETURNED FROM ST. PAUL

Cerebral Hemorrhage Carried Him Away in the Presence of His Friends

In the presence of his friends, H. A. Lyddon and D. K. Fullerton, who had returned with him from St. Paul, John Lowey the popular foreman of the pattern shop department of the Northern Pacific railway shops was suddenly stricken with cerebral hemorrhage as he sat at the table in the Dick Herbert restaurant at about 12:15 Sunday morning and passed away peacefully without a moan or a struggle.

In company with Supt. J. P. Anderson and Messrs. D. K. Fullerton and H. A. Lyddon, Mr. Lowey went to St. Paul on Saturday morning as representatives of the mechanical department of the Brainerd shops and attended the farewell reception tendered William Moir, mechanical superintendent of the railway. The gentlemen arrived in St. Paul Saturday morning and spent the day sight seeing and visited among other points of interest the new Masonic Temple. They lunched together at at three o'clock in the afternoon went to the offices of Mr. Moir and attended the farewell reception.

To Mr. Moir the mechanical department of the system gave as a testimonial of his services a handsome bookcase, 286 volumes of works of a technical nature, an electric reading lamp and a rocking chair, the presents of the heads of departments and foremen of this branch of the Northern Pacific railway system. Speeches were made by many in the party and all expressed their regret in having Mr. Moir leave them.

The Brainerd party left at about five o'clock in the afternoon, had supper together and then boarded General Manager Gemmell's car which was at the Como shops and was attached to the night train for Brainerd.

Arriving in this city early Sunday morning Supt. Anderson left the party at the depot and went home. Messrs. Lyddon, Fullerton and Lowey went to Dick Herbert's restaurant for a lunch.

Mr. Lowey took a seat at the lunch counter in the middle of the room with Messrs. Lyddon, Fullerton and a gentleman named McIntosh near him.

Suddenly Mr. Lowey gave a deep breath and his head fell forward on the counter. His hands dropped to his sides. All thought he had fainted. He had ordered his lunch and had drunk part of a cup of coffee. Mr. Herbert and his friends rushed to his assistance and all did what they could to relieve him, imagining it was a fainting spell.

Dr. O. T. Batcheller was hurriedly called and came immediately. But Mr. Lowey was beyond all medical aid. Cerebral hemorrhage had attacked him and in the twinkling of an eye he had passed away to his reward. Without a struggle or tremor he had been seized by the sudden shock and had died before the eyes of his friends who had been powerless to prevent it or check it.

The deceased was born in the Isle of Man about 71 years ago last January. There he was married to Miss Anne Firth and together they emigrated to America. Mr. Lowey was first employed by the M. K. & T. railway at Parsons, Kansas, as a pattern maker and then with his family removed to Brainerd and about 27 years ago assumed the foremanship of the pattern department of the shops in this city. He was a most popular foreman and was well liked by all who knew him and his friends were legion.

He held membership in the four bodies of the Masonic order, being a member of the Blue Lodge, the Chapter, the Commandery and the Council. He was also a Shriner and held membership in Zura Temple at Minneapolis.

He was prominent in church work and for many years has been a vestryman of St. Paul's Episcopal church the church being but a short distance from his home at 501 North Ninth street. He was quiet and unostentatious in his manner and quietly performed many deeds of charity.

The deceased leaves three children, Miss Amy L. Lowey, principal of the Lowell school; Miss Irene C. Lowey, a teacher at the Whittier school; Frank J. Lowey of the pattern department of the shops. He has a niece, Miss Blanka Firth, who has made her home with the family for several years and is at present attending school at St. Mary's Hall in Paribault.

The funeral will be held at three o'clock Tuesday afternoon from St. Paul's Episcopal church, the rector, Rev. J. R. Alten officiating. It will be under the auspices of the Blue Lodge with an escort furnished by the Commandery.

Supt. Anderson said: "Mr. Lowey seemed perfectly well when he left me at the Brainerd depot on Sunday morning and words cannot express how sorry I felt to hear he had been carried away so suddenly. Mr. Lowey was a man of fine disposition and every man who met him liked him. For 27 years a foreman of the pattern shop he stood well in the esti-

mation of his superior officers and the company."

Mr. Fullerton, shocked by the sad occurrence, added his words of praise of the deceased and said: "Mr. Lowey was well liked by all. He was very liberal and kind hearted and no foreman was more popular than he was. He was always honorable and good hearted in all his dealings and habits."

H. A. Lyddon, grieved about the loss of his friend, said: "I have known Mr. Lowey over 24 years and in that time I have learned to love him for his kindly ways. He was respected by every one who knew him and he had many friends who will regret his untimely demise."

To the family the Dispatch and the community tender their sincerest expressions of sympathy in the sad hour of their bereavement.

PROMINENT IRON MEN

Part Owner of the Celebrated Rust Mine in the City Today Investigating the Cuyuna

A distinguished visitor in the city today is Thomas Martin, of Duluth, a part owner of the celebrated Rust mine on the Masaba range of northern Minnesota. He had been inspecting the Cuyuna range in company with J. A. Stetson, the mining and real estate man of Deerwood and both arrived in Brainerd on this noon's train.

Mr. Martin is a firm believer in the Cuyuna range and believes it offers great opportunities for investment and exploration. He is a friend of R. R. Wise who has known him many years. Mr. Martin is at the head of a great timber firm handling ties, poles etc., and left this afternoon for Leech lake to inspect timber there.

AT THE GOVERNMENT DAM

Parker Waite, Who Had Several Contracts at the Gull Lake Dam, Was in City Today

"One should visit the dam at Gull lake," said Parker Waite, who was in the city today. "I have completed my contract for furnishing piling and lumber. The visitor will be impressed with the magnitude of the operation contemplated by the government for it is a great undertaking."

The coffer dam has been finished. Near it the piling will be driven and a start has been made at the excavation work. Tracks are being laid to carry away the soil dug out and four steam engines will haul away the string of cars. There is a steam pile driver on the place, steam stone crusher and a steam cement or concrete mixer.

It will probably be some time about the fifteenth of June that the cement work will be on in full blast. It is then that the largest crews of men will be employed.

"This project of the government," concluded Mr. Waite, "is well worthy a visit and as the roads are good an automobile can easily make the trip in quick time. It will be one of the biggest dams in this section of the country and means much for this northern country." Mr. Waite returned to Pillager this noon.

NETTLETON-ARMS WEDDING

Daughter of Mr. and Mrs. P. B. Nettleton is Married at Anacortes, Wash.

Surrounded by sixty most intimate friends and relatives, Miss Jessie Baird Nettleton and Mr. James Jackson Arms of Anacortes, Wash., were married Thursday evening at 8:30 at the home of the bride's parents, Mr. and Mrs. Philander Birney Nettleton, 1806 Eighth avenue West, by Rev. Frederick T. Webb, of Tacoma, a life long friend of the bride's family.

The rooms were decorated elaborately with apple blossoms. The bride, who was unattended, wore an exquisite hand-made lingerie gown with a long tulle veil held in place with orange blossoms, and carried a shower bouquet of bride's roses.

Ruth and Jane Nettleton, little nieces of the bride, in white French frocks, were the ribbon bearers. The wedding march was played by Miss Krunick, and Miss Nan S. Church received the guests at the door.

An informal reception followed the ceremony, when Mr. and Mrs. Nettleton were assisted in entertaining the guests by Mrs. Walter Nettleton, Miss Lullie Nettleton and Mrs. Thos. J. Church.

Mrs. Nettleton, mother of the bride was gown in black silk grenadine over black silk.

Among the out-of-town guests were Mr. and Mrs. Henry Baird, of Louisville, Ky., aunt and uncle of the bride.

Mr. and Mrs. Arms left for a trip of a month in California, and will be at home in Anacortes the middle of May.

The nery party who took the tent from 301 Second Ave. N. E. last Thursday night, had better return it in double quick time as they are known.

DAY BY DAY.

Finish every day and be done with it. You have done what you could. Some blunders and absurdities crept in. Forget them. Tomorrow is a new day. You shall begin it well and serenely and with too high a spirit to be incumbered with your old nonsense.

Bargains

In Silk Petticoats

These bargains are for those who will look into our Arcade windows. Tonight we will place a large number of silk petticoats in our windows and tomorrow, Tuesday, morning they will go on sale.

We have a larger stock than we wish and your privilege will be to have one of these good things. There are taffetas and the popular narrow Messaline ones in the lot. The arcade will be lighted tonight so that you may see them.

NATURAL MEADOWS OF MINNESOTA

Northern Minnesota Clover Seed Captures Premiums at the Leading Shows of Country

NO LIMIT TO THE HAY CROP

Minneapolis Journal Comments on the Important Pasture Crop of This State

In a series of well written articles the Minneapolis Journal has been paying attention to the agricultural development of the state and on its front page has cited daily instances of concrete examples. In speaking of the natural meadows of this state the article states:

The pasture crop in northern Minnesota is one of the state's best. Clover is almost a weed in northern Minnesota and the seed is in demand everywhere. Some meadows flourish twenty-five or thirty years without reseeded and only an occasional fertilizing.

The growing of hay fits in very well with the handling of timber land and northern Minnesota hay ranks at the top in the leading markets, selling from \$6 to \$25 a ton and averaging between \$8 and \$10 during winter months in the ordinary seasons.

Northern Minnesota clover seed has captured premiums at the leading shows of the country. One small town in Minnesota sold \$25,000 worth of clover seed the first season after the clover hullers were put into the country.

There is hardly a limit to the hay crops that can be grown, while all clovers do exceedingly well, and alfalfa will thrive in most of the counties in northern Minnesota where the land is fairly well drained.

Thomas H. Parsons, of Pillager, furnishes the Journal with the following article on the subject of Minnesota meadows:

"Central and northern Minnesota contains a large acreage of meadow land producing an average of over 2 tons of the best wild hay to the acre and, notwithstanding there is an unlimited market for hay at a net profit of at least \$2 per ton, thousands of tons go to waste annually for want of cutting and stacking. This was plainly apparent last season, where, in the vicinity of Motley, Wheelock and Pillager, many tracts of fine meadow remained uncultivated, and hay is now selling at \$7 a ton in the stack and \$12 to \$14 a ton f. o. b. Pillager. Seven dollars a ton in the stack means at least \$5 a ton net profit or \$10 an acre income from the land producing it. Three dollars a ton is the lowest price that hay has been sold for in the vicinities mentioned. The last two seasons, \$7 a ton in the stack was realized and the demand and price are constantly increasing as the settlement of the country progresses.

"The best posted men in the state argue that 100 acres of natural meadow is of more value than 100 acres of the best standing pine timber, for the reason that when the timber is cut off and sold, the owner has realized his income from only one crop, whereas the income from the natural meadow continues increasing annually for a life time.

"The soil of the natural meadows of Minnesota equals in richness that of the valleys of the Nile and is practically inexhaustible. I can point to meadows in this vicinity that have been mowed every year for the last twenty years, producing larger crops of a better quality now than when first cut. The meadows of central and northern Minnesota are not only adapted to the production of hay, but may be drained easily and made to produce other crops in abundance.

"The natural meadows of the state are constantly growing in favor; and the time is not far distant when \$100 an acre will be considered cheap for land now begging on the market at from \$10 to \$15 an acre. The timber may be cut off and the iron ore beds exhausted, but the natural meadows of Minnesota will last and produce a good income forever."

MUST GIVE NAMES

All Firms Must Make Public the Names of all Members Connected Therewith

Editor Dispatch:—

The last legislature passed a law which is in part as follows:

No person or persons shall carry on a commercial business in this state under any designation name or style, which does not set forth the full name or names of every person or persons interested in such business unless such person or persons shall file in the office of the clerk of district court of the county a certificate setting forth the name under which such business is to be carried on and the true or real full name of the members of the firm, with their address, and so forth.

It is found in Chapter 271 of the laws of last session. It gives sixty days in which to comply with the act, and it is a misdemeanor punishable by fine not to comply therewith.

I would advise all firms doing business to look this up.

W. A. FLEMING.

YOUNG PEOPLES SOCIETY

Of Seventh Street Norwegian Lutheran Church Give a Concert at Church This Evening

The Young Peoples society of the Seventh street Lutheran Norwegian Lutheran church gives a concert at the church parlors this evening and great preparations had been made to get up a good program. It is as follows:

THE CITY SWITCH BOARD INSTALLED

Board is Placed in Position Sunday Afternoon and Installation Work Finished Monday

PEAK LOAD SATURDAY 8:30 P. M.

Load Carried Varies From the Minimum 25 Kilowatts to 260 Kilowatts of Peak Load

For a short period Sunday morning and afternoon the electric current was shut off from Brainerd and busy workmen installed the city switch board made by the General Electric Co., of Schenectady, N. Y., at the Toltz Power Co. plant. It is a board of the most approved and up to date pattern and was placed in position by the Northwestern Electric Equipment Co.

The city's end of the board is two panels in width and the entire switch board is of black slate. It is equipped with a synchronic indicator which indicates when the tandem twin gas engines are in step, that is, both supplying current harmoniously and at the same time.

Another interesting device is the graphich meter. A pen traces the amount of current generated and a long sheet is run out marked with the hours and so spaced that one may read the sheet and ascertain exactly what amount of current was produced at any period of the day or night.

On Sunday night at 8:30 P. M. when the street lights were on and when the churches commenced using current the amount supplied was 155 kilowatts. Monday morning at seven o'clock the consumption of current shrunk to 25 kilowatts.

The peak load was Saturday night when all the stores were busy and when the street lights were turned on full force. The indicator at 8:30 P. M. then registered 260 kilowatts. At eleven o'clock the same evening when business operations had ceased in the downtown district of Brainerd the electric light consumption dwindled to 110 kilowatts.

On the city's board is an amperemeter for each circuit and also a watt meter for each of the two circuits. There are also two circuit closing overload relays.

There may occasionally be fluctuations in the supply of current but patrons must remember that at six o'clock the work of generating current is switched from the small to the larger engine and at eleven o'clock when the load is less the smaller engine again takes its position. The plant is new and is performing very creditably.

FORMER BRAINERD MAN IN CHARGE

Howard Curry Succeeds William Moir as Mechanical Superintendent of Northern Pacific

HAS 10,000 SKILLED WORKMEN

Mr. Curry Has Risen From the Ranks of Workers to His Present Position of Prominence

Howard W. Curry, recently appointed mechanical superintendent of the Northern Pacific railway system, was for many years a resident of Brainerd and his many friends in this city both in and out of railway circles will extend to him their congratulations and good wishes in the new position to which he has just been promoted. He will have in his employ and under his supervision 10,000 skilled railway workers. His career as a railroad man began in the shops of the Northern Pacific in 1880, and he is now 50 years old.

He came as a young man to Brainerd from Illinois, and from the beginning advanced steadily to successive places of responsibility. From the shop he went to firing and from that position to the position of engineer. From engineer he was promoted to foreman of engines in 1891, and held the job for ten years. Then for two years he was master mechanic of the Dakota and Yellowstone division. In 1902 he became master mechanic of the Minnesota division and in 1905 was advanced to general master mechanic of the Eastern division. Just now he has been made mechanical superintendent, the highest position in the line of his work within the gift of the road.

Because he has risen from the ranks, the rank and file of operating employees on the railway system are especially proud of their new superintendent. He lives at 1005 Hague avenue, St. Paul.

His predecessor, William Moir, before leaving his office Saturday was presented by fellow officers and employees of the railway with a library. He will make his future home in Tacoma.

SUDDEN DEATH OF JOHN LOWEY

Popular Foreman of N. P. Ry. Pat-
tern Shop Expires Sunday Morn-
ing at Herbert's Restaurant

JUST RETURNED FROM ST. PAUL

Cerebral Hemorrhage Carried Him Away in the Presence of His Friends

In the presence of his friends, H. A. Lyddon and D. K. Fullerton, who had returned with him from St. Paul, John Lowey the popular foreman of the Northern Pacific railway shops was suddenly stricken with cerebral hemorrhage as he sat at the table in the Dick Herbert restaurant at about 12:15 Sunday morning and passed away peacefully without a moan or a struggle.

In company with Supt. J. P. Anderson and Messrs. D. K. Fullerton and H. A. Lyddon, Mr. Lowey went to St. Paul on Saturday morning as representatives of the mechanical department of the Brainerd shops and attended the farewell reception tendered William Moir, mechanical superintendent of the railway. The gentlemen arrived in St. Paul Saturday morning and spent the day sight seeing and visited among other points of interest the new Masonic Temple. They lunched together at three o'clock in the afternoon went to the offices of Mr. Moir and attended the farewell reception.

To Mr. Moir the mechanical department of the system gave as a testimonial of his services a handsome bookcase, 286 volumes of works of a technical nature, an electric reading lamp and a rocking chair, the presents of the heads of departments and foremen of this branch of the Northern Pacific railway system. Speeches were made by many in the party and all expressed their regret in having Mr. Moir leave them.

The Brainerd party left at about five o'clock in the afternoon, had supper together and then boarded General Manager Gemmell's car which was at the Como shops and was attached to the night train for Brainerd. Arriving in this city early Sunday morning Supt. Anderson left the party at the depot and went home. Messrs. Lyddon, Fullerton and Lowey went to Dick Herbert's restaurant for a lunch.

Mr. Lowey took a seat at the lunch counter in the middle of the room with Messrs. Lyddon, Fullerton and a gentleman named McIntosh near him. Suddenly Mr. Lowey gave a deep breath and his head fell forward on the counter. His hands dropped to his sides. All thought he had fainted. He had ordered his lunch and had drank part of a cup of coffee. Mr. Herbert and his friends rushed to his assistance and all did what they could to relieve him, imagining it was a fainting spell.

Dr. O. T. Batcheller was hurriedly called and came immediately. But Mr. Lowey was beyond all medical aid. Cerebral hemorrhage had attacked him and in the twinkling of an eye he had passed away to his reward. Without a struggle or tremor he had been seized by the sudden shock and had died before the eyes of his friends who had been powerless to prevent it or check it.

The deceased was born in the Isle of Man about 71 years ago last January. There he was married to Miss Anne Firth and together they emigrated to America. Mr. Lowey was first employed by the M. K. & T. railway at Parsons, Kansas, as a pattern maker and then with his family removed to Brainerd and about 27 years ago assumed the foremanship of the pattern department of the shops in this city. He was a most popular foreman and was well liked by all who knew him and his friends were legion.

He held membership in the four bodies of the Masonic order, being a member of the Blue Lodge, the Chapter, the Commandery and the Council. He was also a Shriner and held membership in Zura Temple at Minneapolis.

He was prominent in church work and for many years has been a vestryman of St. Paul's Episcopal church the church being but a short distance from his home at 501 North Ninth street. He was quiet and unostentatious in his manner and quietly performed many deeds of charity.

The deceased leaves three children, Miss Amy L. Lowey, principal of the Lowell school; Miss Irene C. Lowey, a teacher at the Whittier school; Frank J. Lowey of the pattern department of the shops. He has a niece, Miss Blanka Firth, who has made her home with the family for several years and is at present attending school at St. Mary's Hall in Fairbault.

The funeral will be held at three o'clock Tuesday afternoon from St. Paul's Episcopal church, the rector, Rev. J. R. Alten officiating. It will be under the auspices of the Blue Lodge with an escort furnished by the Commandery.

Supt. Anderson said: "Mr. Lowey seemed perfectly well when he left me at the Brainerd depot on Sunday morning and words cannot express how sorry I felt to hear he had been carried away so suddenly. Mr. Lowey was a man of fine disposition and every man who met him liked him. For 27 years a foreman of the pattern shop he stood well in the esti-

mation of his superior officers and the company."

Mr. Fullerton, shocked by the sad occurrence, added his words of praise of the deceased and said: "Mr. Lowey was well liked by all. He was very liberal and kind hearted and no foreman was more popular than he was. He was always honorable and good hearted in all his dealings and habits."

H. A. Lyddon, grieved about the loss of his friend, said: "I have known Mr. Lowey over 24 years and in that time I have learned to love him for his kindly ways. He was respected by every one who knew him and he had many friends who will regret his untimely demise."

To the family the Dispatch and the community tender their sincerest expressions of sympathy in the sad hour of their bereavement.

PROMINENT IRON MEN

Part Owner of the Celebrated Rust Mine in the City Today Investigating the Cuyuna

A distinguished visitor in the city today is Thomas Martin, of Duluth, a part owner of the celebrated Rust mine on the Masaba range of northern Minnesota. He had been inspecting the Cuyuna range in company with J. A. Stetson, the mining and real estate man of Deerwood and both arrived in Brainerd on this noon's train.

Mr. Martin is a firm believer in the Cuyuna range and believes it offers great opportunities for investment and exploration. He is a friend of R. R. Wise who has known him many years. Mr. Martin is at the head of a great timber firm handling ties, poles etc., and left this afternoon for Leech lake to inspect timber there.

AT THE GOVERNMENT DAM

Parker Waite, Who Had Several Contracts at the Gull Lake Dam, Was in City Today

"One should visit the dam at Gull lake," said Parker Waite, who was in the city today. "I have completed my contract for furnishing piling and lumber. The visitor will be impressed with the magnitude of the operation contemplated by the government for it is a great undertaking."

The coffer dam has been finished. Near it the piling will be driven and a start has been made at the excavation work. Tracks are being laid to carry away the soil dug out and four steam engines will haul away the string of cars. There is a steam pile driver on the place, steam stone crusher and a steam cement or concrete mixer.

It will probably be some time about the fifteenth of June that the cement work will be on in full blast. It is then that the largest crews of men will be employed.

"This project of the government," concluded Mr. Waite, "is well worthy a visit and as the roads are good an automobile can easily make the trip in quick time. It will be one of the biggest dams in this section of the country and means much for this northern country." Mr. Waite returned to Pillager this noon.

NETTLETON-ARMS WEDDING

Daughter of Mr. and Mrs. P. B. Nettleton is Married at Anacortes, Wash.

Surrounded by sixty most intimate friends and relatives, Miss Jessie Baird Nettleton and Mr. James Jackson Arms of Anacortes, Wash., were married Thursday evening at 8:30 at the home of the bride's parents, Mr. and Mrs. Philander Birney Nettleton, 1806 Eighth avenue West, by Rev. Frederick T. Webb, of Tacoma, a life long friend of the bride's family.

The rooms were decorated elaborately with apple blossoms. The bride, who was unattended, wore an exquisite hand-made lingerie gown with a long tulle veil held in place with orange blossoms, and carried a shower bouquet of bride's roses.

Ruth and Jane Nettleton, little nieces of the bride, in white French frocks, were the ribbon bearers. The wedding march was played by Miss Krumvick, and Miss Nan S. Church received the guests at the door.

An informal reception followed the ceremony, when Mr. and Mrs. Nettleton were assisted in entertaining the guests by Mrs. Walter Nettleton, Miss Lullie Nettleton and Mrs. Thos. J. Church.

Mrs. Nettleton, mother of the bride was gowned in black silk grenadine over black silk.

Among the out-of-town guests were Mr. and Mrs. Henry Baird, of Louisville, Ky., aunt and uncle of the bride.

Mr. and Mrs. Arms left for a trip of a month in California, and will be at home in Anacortes the middle of May.

The nifty party who took the tent from 301 Second Ave. N. E. last Thursday night, had better return it in double quick time as they are known. 282t2

NATURAL MEADOWS OF MINNESOTA

Northern Minnesota Clover Seed Captures Premiums at the Leading Shows of Country

NO LIMIT TO THE HAY CROP

Minneapolis Journal Comments on the Important Pasture Crop of This State

In a series of well written articles the Minneapolis Journal has been paying attention to the agricultural development of the state and on its front page has cited daily instances of concrete examples. In speaking of the natural meadows of this state the article states:

The pasture crop in northern Minnesota is one of the state's best. Clover is almost a weed in northern Minnesota and the seed is in demand everywhere. Some meadows flourish twenty-five or thirty years without reseeded and only an occasional fertilizing.

The growing of hay fits in very well with the handling of timber land and northern Minnesota hay ranks at the top in the leading markets, selling from \$6 to \$25 a ton and averaging between \$8 and \$10 during winter months in the ordinary seasons.

Northern Minnesota clover seed has captured premiums at the leading shows of the country. One small town in Minnesota sold \$25,000 worth of clover seed the first season after the clover hullers were put into the country.

There is hardly a limit to the hay crops that can be grown, while all clovers do exceedingly well, and alfalfa will thrive in most of the counties in northern Minnesota where the land is fairly well drained.

Thomas H. Parsons, of Pillager, furnishes the Journal with the following article on the subject of Minnesota meadows:

"Central and northern Minnesota contains a large acreage of meadow land producing an average of over 2 tons of the best wild hay to the acre and, notwithstanding there is an unlimited market for hay at a net profit of at least \$2 per ton, thousands of tons go to waste annually for want of cutting and stacking. This was plainly apparent last season, where, in the vicinity of Motley, Wheelock and Pillager, many tracts of fine meadow remained uncultivated, and hay is now selling at \$7 a ton in the stack and \$12 to \$14 a ton f. o. b. Pillager. Seven dollars a ton in the stack means at least \$5 a ton net profit or \$10 an acre income from the land producing it. Three dollars a ton is the lowest price that hay has been sold for in the vicinity mentioned. The last two seasons, \$7 a ton in the stack was realized and the demand and price are constantly increasing as the settlement of the country progresses.

"The best posted men in the state argue that 100 acres of natural meadow is of more value than 100 acres of the best standing pine timber, for the reason that when the timber is cut off and sold, the owner has realized his income from only one crop, whereas the income from the natural meadows continues increasing annually for a life time.

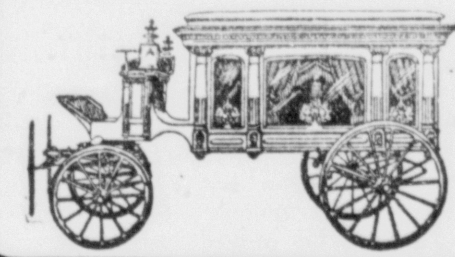

"The soil of the natural meadows of Minnesota equals in richness that of the valley of the Nile and is practically inexhaustible. I can point to meadows in this vicinity that have been mowed every year for the last twenty years, producing larger crops of a better quality now than when first cut. The meadows of central and northern Minnesota are not only adapted to the production of hay, but may be drained easily and made to produce other crops in abundance.

"The natural meadows of the state are constantly growing in favor and the time is not far distant when \$100 an acre will be considered cheap for land now begging on the market at from \$10 to \$15 an acre. The timber may be cut off and the iron ore beds exhausted, but the natural meadows of Minnesota will last and produce a good income forever."

If, when you are ready to purchase a Spring Suit, you'll make it a point to deal with a reputable clothier you can rest assured that any price you pay will purchase clothes which will give you service—clothes which you can depend on.

Sincerity Clothes

have a country-wide reputation for goodness. We sell them. In this case you have two extraordinary factors working together for your satisfaction—"Sincerity Clothes" and ourselves.

Rye & Peterson

FUSSY CHILD

Deliver us from a fussy, whining, nagging child—but it's not the kid's fault; the parents are to blame. Worried children and sickly children are always troublesome.

Kickapoo Worm Killer (the delicious candy tablets) stops the trouble quickly, safely. It is a trustworthy remedy for children. Price, 25c.; sold by druggists everywhere.

Kicked by a Mad Horse

Samuel Birch, of Beetown Wis. had a most narrow escape from losing his leg as no doctor could heal the frightful sore that developed, but at last Bucklen's Arnical Salvo cured it completely. Its the greatest healer of ulcers, burns, boils, eczema, scalds, cuts, corns, cold sores, bruises and piles on earth. Try it 25c at all druggists.

ENGINEERING

F. A. GLASS—Mining Engineer and Surveyor. Direction of Explorations, surveys, plans, estimates reports.

TELEPHONE NUMBERS.

With a Humorist's Views on the Eternal Fitness of Things.

Speaking of telephone numbers, a good number for a cigar dealer would be 2-4-5, and a cheap suburban sport might as well be 4 Flushing as anything else. An Irishman wishing to dine would naturally call up a place 2-8, but a Hinglishman 'aving to call up a blasted, bloomin' creditor regarding a bill would be '8-2.

A lover ordering a chair would want 1-4-2, and a newly wed couple wishing a flat would want 1-4-2-2, but the German maiden refusing to marry would shout 9-9-9-9. (Oh, how clever!)

If you want to borrow you wish 4-2-0, and probably that is a money lender's number, but if you only want a small loan from a friend you will wish 2-0-5. (That's pretty cute. What?)

The bookmaker should have two phones—9-2-1 for long shots and 4-2-3 for favorites. The man with a dog might call 6-6-6-6—(get that?)—and the farmer should put 8-0 on his list. (Put-eight-o, hey, what! I rather guess that's a rotten potato!)

If two horses were in the running and 1-1-5-0 John he would be a happy lad and his smile would be 2-2 Broad. (This is one 1-8-2 Spring on you.) And if John spent the cash for liquor I would cry 5-5-5-4 John! But that is just how careless John is. His drinking is hades for his wife, but it's 7-4 John. (What, ho!)

(Honestly, I could keep this up all night!) If two of you wished to be wed you would not have 2-8-4 Spring, because you could call 4-1 Rector to make you one immediately, and then, if tired of being united in one, you could go to a fat judge and let that 1-2 Broadparty-W again. (If you can't see that, ask for information.)—Ellis Parker Butler in Judge.

MODERN CHEMISTRY.

Prediction of a Scientist and Its Remarkable Verification.

When a mathematical astronomer in Paris gave a Berlin observatory a search warrant for a new planet and, turning his telescope as directed, the Berlin observer found the previously unknown planet all the world wondered. Equally remarkable have been a prediction and its verification in the history of modern chemistry. Grading the known elements of nature according to the weight of their respective atoms, it was observed that the elements, some seventy or more in number, formed a scale marked by periodicity like the scale in music. This periodic law in the hand of genius became an instrument of research. It was in 1871 that Mendeleef, the Russian chemist, in forming the scale of elements, found it necessary to leave three spaces vacant for undiscovered elements to make his table true.

Neither did he hesitate to predict the properties which these elements should possess when discovered. It was as if an astrologer should inform you that you would meet some time in your life three men and that with the utmost particularity he told you their respective physical weights, the color of their hair, the size of hat, shoe and glove worn by each and, in a word, all the habits of mind and body sufficient to discriminate them positively from all other men. Not only was the prediction literally fulfilled, but Mendeleef had the unexpected pleasure to see the verification in his day, for out of the night of the unknown one after another came the predicted elements into the clear sunlight of science and were instantly recognized.—Louisville Courier-Journal.

Scorn.

NAVAL DESERTERS.

They Face Fines, Imprisonment and Loss of Citizenship.

Every time a fleet of naval vessels visits port there are sure to be a number of desertions. These come about from various causes, and among the deserters is always a large percentage of recruits that come from inland states. To these young men the confinement of a ship and daily drills soon become irksome. This, added to seasickness, to which they are almost invariably subject, produces an irresistible desire to desert. In other instances desertions come about through the men becoming intoxicated and practically irresponsible while on shore leave. In the meantime their vessel may sail. These men are not at first termed deserters, but are set down as stragglers. If, however, after a period of ten days nothing is heard from them by the ship's officers they are then considered deserters.

At the end of the ten day limit their allotment is stopped, the bureau of navigation is notified, and, in conformity to an act of congress, their effects are sold before the mast. The amount realized is placed to their account and the latter transferred to the deserters' roll. At the end of six months, if they still have not been heard from, their wages are declared forfeited to the United States. The penalty for desertion is fine and imprisonment as well as loss of citizenship.

The reward for the recovery of a deserter may not exceed \$20, and for a straggler the limit is \$10. This sum, together with any expenses incurred by the person capturing and delivering a deserter or straggler, when it is paid by the government is charged against the account of the man. If the enlistee man finds he has been left ashore and if he really had no intention of deserting he may report to the nearest naval station or if in a foreign country to the United States consul. When this is done he is immediately taken off the deserters' roll and accounted merely as a straggler, the punishment for which as a rule is light.—Marine Journal.

FEARED A TRAP.

A Bit of Japanese Strategy That Deceived the Enemy.

Many a man has failed to guess an easy riddle because the simple solution looked like a trap to him. Here is an instance in which this trait of human nature was cleverly played upon by a Japanese nobleman.

The old lord had been forced to flee with only 300 men before an enemy with 10,000 and barely had time to reach his castle ahead of his foes. There were no re-enforcements near at hand, and he knew that if an attempt was made to storm his defenses he and his men would be dead before help could come.

The enemy's forces advanced rapidly, and scouts rode up near the castle to reconnoiter. To their amazement, they found the gates, doors and windows open and all the appearance of a holiday celebration. They rode hastily back to inform their master that the foe was dancing and that bands were playing music in the castle.

The powerful enemy was too wise a man to put his head into any such trap as that. The defenders of the castle must have some plan to slaughter his forces by wholesale or they would never invite him in that way. He drew back to a safe distance and encamped to await developments.

Soon the re-enforcements for the castle came up behind, attacked him suddenly and defeated him, while the garrison, which had risked all on its stratagem, charged him on the other side.

Rossini's Reception of Wagner.

Wagner and some companions called upon Rossini. Hearing them on the stairs, Rossini hastily placed the score of "Lohengrin" on the piano, and when the German composer entered he said, pointing to it, "You see, illustrious maestro, I am studying your work."

"But the score is upside down!" exclaimed the other, seeing how the book was placed.

"Yes," returned Rossini calmly; "the fact is I have had it the right way up for some time, but could make nothing of it," and then all present began to laugh, including Wagner himself.—Voice and Violin.

Able to Take Care of Himself.

"Camille, my child," said the gentle dame, "if what I hear is true, Mr. Harkyns is boasting of having made a conquest of you, and I trust you will see the propriety of requesting him to discontinue his visits."

"Don't you worry, maw!" exclaimed the imperious beauty. "When I found out that Hank Harkyns had told Lil Jones I was dead stuck on him I gave him the g. b. You bet he knows he's broke his pick with me, all right!"—Chicago Tribune.

The Denial Habit.

"Let me caution you about one thing," said the alert sister of the prospective groom.

"Well?"

"When the bishop asks you if you take this woman to be your wedded wife, please don't say there's no truth in the rumor."—Louisville Courier-Journal.

An Insect Gunner.

Many insects have some means of defense from their natural enemies, none of which is more curious than that of a small beetle, which, when closely pursued, discharges a puff of poisonous vapor with a distinct detonation. Undoubtedly in many instances this aids the diminutive gunner in his escape, mainly, in all probability, by startling his pursuer and causing him to abandon the chase. From this peculiar acquirement, this little fellow is known as the bombardier beetle.

She Doesn't Ask.

"Does your wife ask you for things she knows you can't afford?"

"She hasn't asked me for a thing since we were married."

"Great! How do you manage it?"

"When she wants a thing she does not ask me; she tells me."—Houston Post.

CLOTH FOR UNCLE SAM.

It Must Be Pretty Good Stuff to Pass the Government Tests.

The men of the United States army come nearer knowing to a certainty what they are buying in the way of cloth than do any other consumers in the country, says Mary Heaton Vorse in Success Magazine. When the government gives out a million dollar cloth contract it seems to it that it gets material according to specification. The specific contracts for various sorts of cloth are elaborate and go into the technical side of the matter—the number of threads to be used to the yard, the kind of wool to be used in the manufacture—for the United States soldier has to be well dressed in clothes that will stand the strain of weather and of work. On Governors Island, New York city, there is a testing laboratory for cloth. A specification of the weight per linear yard of each kind of cloth is mentioned. Each bolt of goods is weighed, and if it falls short of the proper weight it is thrown out. Next the question of wear and tear is considered, and again the specification is stated that each special kind of cloth will stand a strain of so many pounds to the inch work way and so many pounds to the inch filling way. So, after weighing, the next test is to cut a sample and try in a machine the strength of the cloth. If it won't stand this test the cloth is thrown out.

After the cloth has been pronounced perfect for weight and strength the dye tests are made. It must stand two acid tests for perspiration, and the material must stand boiling for ten minutes in a certain soap solution, showing that it will stand washing with strong alkalis, and finally comes the weather test, the material being exposed thirty days on the roof without changing color appreciably. If the cloth has passed its examinations successfully each yard of each piece of cloth is inspected, being run over machines for the purpose, while inspectors watch for any imperfections in the weave. An eighth of a yard for each imperfection is charged to the manufacturer.

So when the cloth is finally sent to the contractor to be made into uniforms it is known to be of really good material. Each spool of thread, each button, each lining, each filling used in the clothes of soldiers has its own special test.

Figs For Melancholia.

Dr. William Buley, of the same family as the unfortunate Anne Boleyn, was a contemporary of Sydney, Raleigh, Drake, Hawkins, Grenville, Spenser and the rest of that famous galaxy that illuminated the Elizabethan era. The leading physician of his day, he took great interest in vegetable remedies, and his "Book of Simples" was an honored authority for generations. He recommends the free use of sage tea and of figs, saying: "Figs are good against melancholy and the falling evil (epilepsy) to be eaten. Figs, nuts and herb grasse do make a sufficient medicine against poison or the pestilence. Figs make a good gargism to cleanse the throat."—Charles Winslow Hall in National Magazine.

Not Loaded.

No other language under the sun is open to so many interpretations as the English language, as witness the conversation between two Sharon Hill girls the other evening:

"Oh, May," said the first one, "Jim and Bill tried to fight a duel over me."

"How romantic! What happened?"

"It was terrible. I came into the room, and those foolish boys were pointing big pistols at each other!"

"Pistols? Heavens! Were they loaded?"

"Not a bit. That is just what made it really very serious. They both were sober."—Philadelphia Times.

The Importance of the Beard.

The importance of the beard was fully recognized in the middle ages. Here is a passage (quoted by J. A. F. Orban in "Sixtine Rome") from a letter of the writer, Bartolomeo Catena: "It is well that those who have to lead and govern should have a long and fine beard. And I can assure you that the government of cities and provinces has been given to more than one prelate because he had a long and fine beard; otherwise he were not worthy that honor."

Educational.

"Do they teach domestic science at your college?" inquired the visitor of the freshman.

"Only sewing," replied the freshman.

"Good idea," said the visitor. "And what do you sew chiefly?"

"Wild oats," replied the freshman.—Harper's Weekly.

Took It to Heart.

"Didn't you hear all of the professor's lecture?"

"Why, no. He began by saying that sleep is the secret of right living, and then I came home and went to bed."—Cleveland Plain Dealer.

COPENHAGEN SNUFF

GUARANTEE OF QUALITY AND PURITY

Copenhagen Snuff is made of the best, old, rich, high-flavored leaf tobacco, to which is added only such ingredients as are component parts of natural leaf tobacco and absolutely pure flavoring extracts. The Snuff Process retains the good of the tobacco and expels the bitter and acid of natural leaf tobacco.

AMERICAN SNUFF COMPANY, 111 Fifth Avenue, New York, N. Y.

PROGRAM OF EXAMINATIONS

For Common School Certificates May 4, 5 and 6, 1911

THURSDAY, MAY 4th
Court House.
(First Grade Studies)
A. M.—8:00 Enrollment.
8:30 Geometry.
10:15 Physics.
P. M.—1:15 Algebra.
2:45 Physical Geography or General History.
4:15 Agriculture.

FRIDAY, MAY 5th.
Washington School.
(Second Grade Studies)
A. M.—8:00 Enrollment.
8:30 Professional Test.
9:30 Spelling.
10:00 Arithmetic.
P. M.—1:15 Geography.
2:45 Composition.
3:45 Reading.
4:40 Penmanship.

SATURDAY, MAY 6th
Washington School.

(Second Grade Studies Continued)
A. M.—8:00 U. S. History.
9:45 English Grammar.
11:30 Music.
P. M.—1:15 Physiology-Hygiene.
2:45 Civics.
4:00 Drawing.
If Professional Test commences less than 60 minutes, spelling and arithmetic may begin not to exceed 30 minutes earlier.

Not Talkative.
Hewitt—He doesn't talk much.
Jewett—No. He is an economical sort of liar.—New York Press.

Beware of Ointments for Catarrh that Contain Mercury

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made in Toledo, O., by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

JUST PUBLISHED

Webster's NEW INTERNATIONAL Dictionary, G. & C. Merriam Co., Springfield, Mass., surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. F. Harris, former United States Commissioner of Education, and revised by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unappealing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with lucidity and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

400,000 words and phrases.

6000 illustrations.

2700 pages.

Write to the publishers for Specimen Pages.

ATTRACTIVE HOMES

GOOD PAINT PUTS THE "FINISHING TOUCH" ON YOUR HOME.

Good Paint serves the house in the same way clothing serves our bodies. It makes our homes attractive, cheerful, wholesome; it protects them from wind and weather.

Good Paint, Blood's Paint, lends an air of refinement, adds an artistic charm to our homes while affording them every protection Good Paint can. It does this at a smaller yearly cost than other paints. The way it is made makes it wear longer and look better. That's the chief reason why we sell and recommend it.

Sentiment Or Business?

On Which Basis Do YOU Advertise?

Some men buy advertising space in a paper because the paper tells that "it deserves their support," not because the space will produce results.

Then they charge the amount up to their advertising appropriation.

An advertising appropriation is the seed of the modern business, properly sown and cultivated it will multiply a hundred fold.

So that each cent taken from the advertising appropriation robs the advertiser not of one cent, but of a potential dollar.

Be charitable, not with the seed, but out of the abundance of the harvest! Next time a paper approaches you with an appeal for your "support"—subscribe for the paper out of your private purse if you like and have it sent to a friend, but don't buy alleged "advertising" space and deduct the cost from the amount you can afford to spend in real advertising.

Business and sentiment are oil and water—they don't mix. The heavy lidded poppies luxuriate over the business-graves of hundreds who have refused to accept this truism.

And remember—every time you "buy" 10 cents worth of space in a worthless advertising medium you are throwing nine dollars and ninety cents into the Mississippi river.

That isn't even charity—it's just foolishness!

Able to Take Care of Himself.

"Camille, my child," said the gentle dame, "if what I hear is true, Mr. Harkyns is boasting of having made a conquest of you, and I trust you will see the propriety of requesting him to discontinue his visits."

"Don't you worry, maw!" exclaimed the imperious beauty. "When I found out that Hank Harkyns had told Lil Jones I was dead stuck on him I gave him the g. b. You bet he knows he's broke his pick with me, all right!"—Chicago Tribune.

The Denial Habit.

"Let me caution you about one thing," said the alert sister of the prospective groom.

"Well?"

"When the bishop asks you if you take this woman to be your wedded wife, please don't say there's no truth in the rumor."—Louisville Courier-Journal.

An Insect Gunner.

Many insects have some means of defense from their natural enemies, none of which is more curious than that of a small beetle, which, when closely pursued, discharges a puff of poisonous vapor with a distinct detonation. Undoubtedly in many instances this aids the diminutive gunner in his escape, mainly, in all probability, by startling his pursuer and causing him to abandon the chase. From this peculiar requirement, this little fellow is known as the bombardier beetle.

She Doesn't Ask.

"Does your wife ask you for things she knows you cannot afford?"

"She hasn't asked me for a thing since we were married."

"Great! How do you manage it?"

"When she wants a thing she does not ask me; she tells me."—Houston Post.

CLOTH FOR UNCLE SAM.

It Must Be Pretty Good Stuff to Pass the Government Tests.

The men of the United States army come nearer knowing to a certainty what they are buying in the way of cloth than do any other consumers in the country, says Mary Heaton Vorse in Success Magazine. When the government gives out a million dollar cloth contract it seems to it that it gets material according to specification. The specific contracts for various sorts of cloth are elaborate and go into the technical side of the matter—the number of threads to be used to the yard, the kind of wool to be used in the manufacture—for the United States soldier has to be well dressed in clothes that will stand the strain of weather and of work. On Governors Island, New York city, there is a testing laboratory for cloth. A specification of the weight per linear yard of each kind of cloth is mentioned. Each bolt of goods is weighed, and if it falls short of the proper weight it is thrown out. Next the question of wear and tear is considered, and again the specification is stated that each special kind of cloth will stand a strain of so many pounds to the inch work way and so many pounds to the inch filling way. So, after weighing, the next test is to cut a sample and try in a machine the strength of the cloth. If it won't stand this test the cloth is thrown out.

After the cloth has been pronounced perfect for weight and strength the dye tests are made. It must stand two acid tests for perspiration, and the material must stand boiling for ten minutes in a certain soap solution, showing that it will stand washing with strong alkalis, and finally comes the weather test, the material being exposed thirty days on the roof without changing color appreciably. If the cloth has passed its examinations successfully each yard of each piece of cloth is inspected, being run over machines for the purpose, while inspectors watch for any imperfections in the weave. An eighth of a yard for each imperfection is charged to the manufacturer.

So when the cloth is finally sent to the contractor to be made into uniforms it is known to be of really good material. Each spool of thread, each button, each lining, each filling used in the clothes of soldiers has its own special test.

Figs For Melancholia.

Dr. William Buley, of the same family as the unfortunate Anne Boleyn, was a contemporary of Sydney, Raleigh, Drake, Hawkins, Grenville, Spenser and the rest of that famous galaxy that illuminated the Elizabethan era. The leading physician of his day, he took great interest in vegetable remedies, and his "Book of Simples" was an honored authority for generations. He recommends the free use of sage tea and of figs, saying: "Figs are good against melancholy and the falling evil (epilepsy) to be eaten. Figs, nuts and herbs grasse do make a sufficient medicine against poison or the pestilence. Figs make a good gargism to cleanse the throat."—Charles Winslow Hall in National Magazine.

Not Loaded.

No other language under the sun is open to so many interpretations as the English language, as witness the conversation between two Sharon Hill girls the other evening:

"Oh, May," said the first one, "Jim and Bill tried to fight a duel over me."

"How romantic! What happened?"

"It was terrible. I came into the room, and those foolish boys were pointing big pistols at each other!"

"Pistols? Heavens! Were they loaded?"

"Not a bit. That is just what made it really very serious. They both were sober."—Philadelphia Times.

The Importance of the Beard.

The importance of the beard was fully recognized in the middle ages. Here is a passage (quoted by J. A. F. Orban in "Sixtine Rome") from a letter of the writer, Bartolomeo Catena: "It is well that those who have to lead and govern should have a long and fine beard. And I can assure you that the government of cities and provinces has been given to more than one prelate because he had a long and fine beard; otherwise he were not worthy that honor."

Educational.

"Do they teach domestic science at your college?" inquired the visitor of the freshman.

"Only sewing," replied the freshman.

"Good idea," said the visitor. "And what do you sew chiefly?"

"Wild oats," replied the freshman.—Harper's Weekly.

Took It to Heart.

"Didn't you hear all of the professor's lecture?"

"Why, no. He began by saying that sleep is the secret of right living, and then I came home and went to bed."—Cleveland Plain Dealer.

COPENHAGEN SNUFF

GUARANTEE OF QUALITY AND PURITY

Copenhagen Snuff is made of the best, old, rich, high-flavored leaf tobacco, to which is added only such ingredients as are component parts of natural leaf tobacco and absolutely pure flavoring extracts. The Snuff Process retains the good of the tobacco and expels the bitter and acid of natural leaf tobacco.

AMERICAN SNUFF COMPANY, 111 Fifth Avenue, New York, N. Y.

PROGRAM OF EXAMINATIONS

For Common School Certificates May 4, 5 and 6, 1911

THURSDAY, MAY 4th

Court House.
(First Grade Studies)
A. M.—8:00 Enrollment.
8:30 Geometry.
10:15 Physics.
P. M.—1:15 Algebra.
2:45 Physical Geography or General History.
4:15 Agriculture.

FRIDAY, MAY 5th.

Washington School.
(Second Grade Studies)
A. M.—8:00 Enrollment.
8:30 Professional Test.
9:30 Spelling.
10:00 Arithmetic.
P. M.—1:15 Geography.
2:45 Composition.
3:45 Reading.
4:40 Penmanship.

SATURDAY, MAY 6th

Washington School.
(Second Grade Studies Continued)
A. M.—8:00 U. S. History.
9:45 English Grammar.
11:30 Music.
P. M.—1:15 Physiology-Hygiene.
2:45 Civics.
4:00 Drawing.

If Professional Test commences less than 60 minutes, spelling and arithmetic may begin not to exceed 30 minutes earlier.

Not Talkative.

Hewitt—He doesn't talk much.
Jewett—No. He is an economical sort of liar.—New York Press.

Beware of Ointments for Catarrh that Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by P. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made in Toledo, O., by P. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

JUST PUBLISHED

Webster's NEW INTERNATIONAL Dictionary, G. & C. Merriam Co., Springfield, Mass., surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. B. Harris, former United States Commissioner of Education, and reinforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unsurpassing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the everyday speech of street, shop, and household, are presented with fulness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

400,000 words and phrases.

6000 illustrations.

2700 pages.

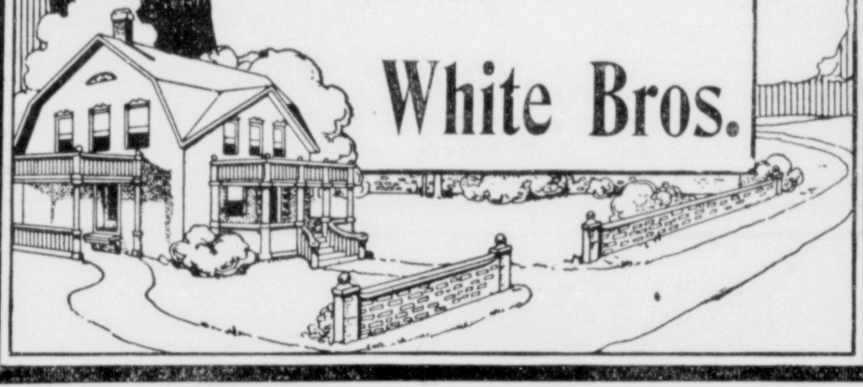

Write to the publishers for Specimen Pages.

ATTRACTIVE HOMES

GOOD PAINT PUTS THE "FINISHING TOUCH" ON YOUR HOME.

Good Paint serves the house in the same way clothing serves our bodies. It makes our homes attractive, cheerful, wholesome; it protects them from wind and weather.

Good Paint, Blood's Paint, lends an air of refinement, adds an artistic charm to our homes while affording them every protection Good Paint can. It does this at a smaller yearly cost than other paints. The way it is made makes it wear longer and look better. That's the chief reason why we sell and recommend it.

Sentiment Or Business?

On Which Basis Do YOU Advertise?

Some men buy advertising space in a paper because the paper tells that "it deserves their support," not because the space will produce results.

Then they charge the amount up to their advertising appropriation.

An advertising appropriation is the seed of the modern business, properly sown and cultivated it will multiply a hundred fold.

So that each cent taken from the advertising appropriation robs the advertiser not of one cent, but of a potential dollar.

Be charitable, not with the seed, but out of the abundance of the harvest! Next time a paper approaches you with an appeal for your "support"—subscribe for the paper out of your private purse if you like and have it sent to a friend, but don't buy alleged "advertising" space and deduct the cost from the amount you can afford to spend in real advertising.

Business and sentiment are oil and water—they don't mix. The heavy lidded poppies luxuriate over the business-graves of hundreds who have refused to accept this truism.

And remember—every time you "buy" 10 cents worth of space in a worthless advertising medium you are throwing nine dollars and ninety cents into the Mississippi river.

That isn't even charity—it's just foolishness!
